Plan of Care Session & Report	Cash Rate - $240
Letter of Medical Necessity	Cash Rate - $90
HBOT (LA Only)	Cash Rate - $75

INSURANCE BILLING

We understand healthcare billing can be challenging, which is why we do our best to make the process as stress-free as possible. We accept all major private insurance plans and will verify your benefits 60 days prior to your intensive start date. At that time, we will provide you will a new invoice estimating your out-of-pocket expense for your intensive session.

Please note: When we verify this coverage, it is only an estimate, not a guarantee that your provider will pay. We encourage you to call your insurance company to determine the exact benefits your plan provides, including plan limits and exclusions.

Specialty services (i.e. feeding or AAC services) have an additional cost when compared to a regular therapy session. For each of those services, there will be an additional charge line (with

a different procedure code) reflected on the claim that will increase the amount billed to your insurance carrier. We will provide you with an estimate of your out-of-pocket costs 60 days prior to your session start date, but if you would like to request this sooner, please contact the clinic your intensive is scheduled with.

If the location you're attending is out-of-network with your insurance carrier, you may choose to pay the full out-of-pocket cost at the self-pay discounted rate ($160 per session for OT, PT, and ST and $180 per session for AAC or Feeding) before services and then submit the claims to insurance on your own with a superbill that we can provide after services are rendered. This guarantees you the cheapest rate because you can take advantage of both the self-pay discount AND insurance reimbursement.
